

Paul Rantucci

Queensland State Manager

paul.rantucci@ticrail.com.au

Background

Paul Rantucci is an experienced rail operations and training professional with a diverse background spanning locomotive driving, vocational education, and defence service. His career reflects a strong commitment to operational safety, high-performance environments, and the development of workforce capability through structured training and mentoring.

In his current role, Paul is responsible for supporting training operations, maintaining strong relationships with industry stakeholders, and ensuring the delivery of high-quality vocational education services aligned with national training package requirements and regulatory standards. His background as a Trainer and Assessor has developed strong capability in training coordination, compliance oversight, and learner support, enabling him to contribute effectively to training program management and continuous improvement initiatives.

Paul holds the TLI42622 Certificate IV in Train Driving along with a range of leadership and training certifications. His combination of operational rail experience, defence service, and instructional capability provides strong industry credibility and supports the delivery of high-quality training outcomes within the vocational education and rail sectors.
